Full-Stack Software Developer

Location: Zurich; **Full-time** (80%-100%)

MediRapp AG is a Swiss MedTech startup company, headquartered in Zurich. Our comprehensive software platform is a game changer, improving heart patient outcomes through innovative data and image analysis, complex diagnosis support, and automatic reporting. Our software is used in hospital environments and private practices, and cardiologists love it. Currently we are preparing the market launch in Switzerland and internationally.

We are looking for a talented and experienced Full-Stack Software Developer with a broad knowledge in multiple areas of software development, specifically with C# and .NET. The ideal candidate will have several years of experience in the field and be passionate about creating and maintaining quality software in the MedTech industry. Join our dynamic startup to have a real impact on the lives of patients around the world!

Responsibilities:

- Play a key role in further developing and maintaining our software platform.
- Collaborate closely with our talented team to design, develop, and implement innovative software solutions.
- Troubleshoot and debug challenging software issues to deliver high-quality code.
- Ensure code quality through comprehensive unit tests and active participation in system architecture and code reviews to maintain best practices.
- Ensure technical documentation is up to date and accurate.
- Provide effective user support to deliver an exceptional customer experience.
- Stay abreast of emerging trends and technologies in software development and contribute to enhancing our development environment.
- Lead and mentor a small development team if applicable

Requirements:

- Bachelor's degree in Computer Science or related field
- Several years of experience in software development
- Broad knowledge of software development lifecycle
- Strong knowledge of and experience with C# and .Net environment (a large part of the application is written using WPF/MVVM)
- Knowledge of XAML and basic SQL concepts
- Some expertise in AI and Natural Language Processing (NLP) would be beneficial
- Strong problem-solving and analytical skills
- Fluent in English, German a plus
- General interest in the MedTech field

Join our team and enjoy flexible work hours and the freedom to work remotely. As we continue to grow, development opportunities will arise, including potential leadership roles within our development team. You will work directly with the founders and have the opportunity to work in our centrally located office in Zurich.

If you have a passion for creating quality software in a dynamic, fast-paced startup environment and are interested in the MedTech environment, apply today to take the next step in your career with us.

Please send us your application to *info@medirapp.ai*.
